## High-Pressure Hand Shower

### Model AQX-0629-47 | Technical Datasheet

| Field                | Reference configuration                                                                                                                  |
|----------------------|------------------------------------------------------------------------------------------------------------------------------------------|
| Overall dimensions   | Face 110 mm; handle 245 mm                                                                                                               |
| Flow                 | 1.8 or 2.5 GPM reference options                                                                                                         |
| Working pressure     | 0.08-0.5 MPa                                                                                                                             |
| Valve / cartridge    | Single spray or push-clean option                                                                                                        |
| Materials            | ABS body; silicone nozzles                                                                                                               |
| Connections          | G1/2 universal shower connection                                                                                                         |
| Finish options       | Chrome; matte black; brushed nickel look                                                                                                 |
| Packing / loading    | 27 x 12 x 7 cm; 0.55 kg gross; 5,200 pcs/20GP                                                                                            |
| Certification status | Flow-rate evidence must match the selected regulator                                                                                     |
| Commercial terms     | Sample: 1 PC subject to availability; standard MOQ: 10 PCS; sample 5-7 days; bulk 25-35 days after specification and packaging approval. |

### Configuration notice

Values are a quotation reference derived from common market configurations. Dimensions, flow control, cartridge, hoses, finish, packaging and certification can be changed for an approved order. Request a signed drawing, approved sample and model-level compliance file before production.
