## Pull-Down Kitchen Faucet

### Model AQX-0629-30 | Technical Datasheet

| Field                | Reference configuration                                                                                                                  |
|----------------------|------------------------------------------------------------------------------------------------------------------------------------------|
| Overall dimensions   | 405 x 230 x 55 mm                                                                                                                        |
| Flow                 | 1.8 GPM at 60 PSI reference                                                                                                              |
| Working pressure     | 0.1-0.6 MPa                                                                                                                              |
| Valve / cartridge    | 35 mm ceramic cartridge                                                                                                                  |
| Materials            | Lead-free brass body; ABS dual-function spray head                                                                                       |
| Connections          | G1/2 or 9/16-24 UNEF supply hoses                                                                                                        |
| Finish options       | Chrome; brushed nickel; matte black                                                                                                      |
| Packing / loading    | 46 x 27 x 8 cm; 2.3 kg gross; 1,120 pcs/20GP                                                                                             |
| Certification status | NSF/ANSI 61 and cUPC configurations subject to final component review                                                                    |
| Commercial terms     | Sample: 1 PC subject to availability; standard MOQ: 10 PCS; sample 5-7 days; bulk 25-35 days after specification and packaging approval. |

### Configuration notice

Values are a quotation reference derived from common market configurations. Dimensions, flow control, cartridge, hoses, finish, packaging and certification can be changed for an approved order. Request a signed drawing, approved sample and model-level compliance file before production.
