## Wall-Mounted Basin Faucet

### Model AQX-0629-45 | Technical Datasheet

| Field                | Reference configuration                                                                                                                  |
|----------------------|------------------------------------------------------------------------------------------------------------------------------------------|
| Overall dimensions   | Spout projection 180-220 mm; trim 200 x 80 mm                                                                                            |
| Flow                 | 1.2 GPM at 60 PSI reference                                                                                                              |
| Working pressure     | 0.15-0.6 MPa                                                                                                                             |
| Valve / cartridge    | 35 mm ceramic concealed mixer cartridge                                                                                                  |
| Materials            | Brass concealed body and spout                                                                                                           |
| Connections          | G1/2 female inlets                                                                                                                       |
| Finish options       | Chrome; matte black; brushed gold PVD                                                                                                    |
| Packing / loading    | 36 x 24 x 11 cm; 2.5 kg gross; 1,180 pcs/20GP                                                                                            |
| Certification status | Rough-in body and trim must be assessed as one final model                                                                               |
| Commercial terms     | Sample: 1 PC subject to availability; standard MOQ: 10 PCS; sample 5-7 days; bulk 25-35 days after specification and packaging approval. |

### Configuration notice

Values are a quotation reference derived from common market configurations. Dimensions, flow control, cartridge, hoses, finish, packaging and certification can be changed for an approved order. Request a signed drawing, approved sample and model-level compliance file before production.
